

IR - Bench

Fast response medical IR - bench

Fast response infrared sensor for pulmonary function testing and diagnostic breath-by-breath measurement

Digital infrared bench with high accuracy, stability and no moving parts

Multi-channel system for simultaneous detection of up to 3 gases

Measuring ranges

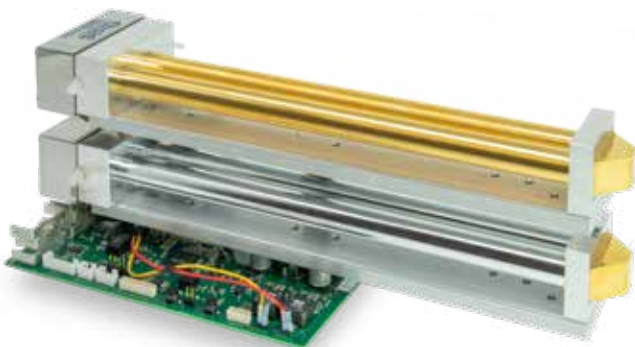

CH ₄	0 ...	3000 ppm
CO	0 ...	3000 ppm
C ₂ H ₂	0 ...	3000 ppm
CO ₂	0 ...	10,0 Vol.-%

Fast analog and digital output

Single power supply 5 V DC

IR - TWIN-Sensor

Sensor for simultaneous measurement of Carbon and Sulfur for elemental analysis of solid materials

Digital IR - Bench

Sensor for monitoring of special transformers fault gases

CH₄, C₂H₂, CO, CO₂ etc.

CO ₂	0 ...	2000 ppm
CO ₂	0 ...	10,0 Vol.-%
SO ₂	0 ...	500 ppm
SO ₂	0 ...	4000 ppm
